2.1 Markdown4-3

2.1.1 From today's featured article

Lionel Matthews (15 August 1912 -- 2 March 1944) was an Australian Army officer during World War II who was posthumously awarded the George Cross, the highest non-combat award for heroism for members of the Australian armed forces at the time. Matthews served in the 27th Brigade during the Malayan campaign, and at the surrender of Singapore in 1942 became a prisoner of war (POW). He was awarded the Military Cross for courage, energy and ability under fire during this fighting.

2.1.1.1 Did you know ...

that in 2017 you could finally have breakfast at Tiffany's (pictured)?

that the British mycologist Denis Garrett, "one of the last 'string and sealing wax' scientists", once bought plastic lavatory cisterns for his laboratory to use in experiments?

that sand in the stomach of the ocean surgeon helps to grind up its food?

2.1.1.1.1 In the news

1. More than 300 girls are kidnapped from a secondary school by armed bandits in Zamfara, Nigeria.
2. In tennis, Naomi Osaka wins the women's singles and Novak Djokovic wins the men's singles at the Australian Open (both winners pictured).

2.1.1.1.1.1 On this day

2.1.1.1.1.1.1 March 2

1444 -- *The League of Lezhë, an alliance of regional chieftains, was established in Venetian Albania with Skanderbeg as its commander.*

1865 -- *New Zealand Wars: Carl Sylvius Völkner (pictured), a Protestant missionary, was killed by Hauhau militants in #p#tiki for working as an agent for George Grey, Governor-General of New Zealand.*

1937 -- *The Steel Workers Organizing Committee, precursor to the United Steel Workers of America, had a major success when it signed a collective-bargaining agreement with U.S. Steel.*

1962 -- *Led by General Ne Win, the Burmese military seized power in a coup d'état.*

aaaaaaaaaaaaaaaaaaa

2.1.2   *Armed conflicts and attacks*

Zamfara kidnapping

1. *All 279 abducted schoolgirls from a boarding school in Zamfara State, Nigeria, are released by their armed kidnappers. (Reuters)*

2.1.2.1   *Health and environment*

COVID-19 pandemic

1. *COVID-19 pandemic in Asia*

   #   *COVID-19 pandemic in Indonesia*

     # *Indonesia reports their first two cases of Lineage B.1.1.7 variant first detected in the United Kingdom. (Liputan6.com)*

   #   *COVID-19 pandemic in Iraq*

     # *Iraq receives 50,000 doses of Sinopharm vaccines as the country officially begins its vaccination campaign. (Asharq Al-Awsat)*

   #   *COVID-19 pandemic in Mongolia*

     # *Mongolia surpasses 3,000 cases of COVID-19. (Montsame)*

   #   *COVID-19 pandemic in the Philippines*

     # *The Philippines reports their first six cases of 501.V2 variant first detected in South Africa. (GMA News)*

2.2.2   *Here is some youtube video*

2.3   **Markdown2-3**

2.3.1   *Formatted Text Examples*

Below is an illustration of the Format toolbar used to format text:

Here are some examples of the effects different options have on text:

2.3.1.1   *Font buttons:*

As well as the standard Font drop down box showing a list of all the fonts on your system and the **Point** size box that allows you to set the font size, two shortcut buttons have been added that allow you to increase the selected text or group of text objects at the press of a button:

a Will increase the font size by 2 points every time you press the button.

a Will decrease the font size by 2 points every time you press the button.

2.3.1.2   Text Format:

The standard text format options are also available for text i.e. bold, italic, underline and outline:

B **Text**

I *Text*

U Text

a Text

Note: You can combine any of these formats together, as in the last example above which is a combination of the bold, underline and outline formats.

2.3.1.3   Text Justification:

Text can be aligned to the
   1. *left,*
   2. *right,*
   3. *centre*

or one of the three full justifications: Full Justification, Density Justification and Aspect Justification.

Note: The Full justification spreads the words across the page but does not change the size of them. The Density Justification also spreads the words and does not change their size but puts spaces between the characters in a word. The Aspect Justification spreads the words but stretches the words to fill the space as well.

The Density and Aspect methods can provide some visually interesting effects.

2.3.2   Useful markdown links:

Link 1
   1. *This is link 1*
Link 2
   1. *This is link 2*
Link 3
   1. *This is link 3*
      #   *Link 4*
         #   *This is link 4 ordered under link 3*

2.3.2.1   I just have to store some code here, if you don't mind

2.3.2.1.1   I'll put it here

LoGiC *iS* **rEaL** *!!!*

```
if(a == 0){  a = 0; }
```

2.3.2.1.2   And also here

It's getting better

```
if (false == true) {  // log some message }
```

2.3.2.1.3   You know the process...

I'll just assert and finish this...

```
public void justAssert(){ boolean checkTrue = true; Assert.assertTrue(checkTrue); } //let me return true he he public boolean trueStatement()
{ return true; }
```

2.4 Backticks
